

Starting off at Cedarwood School as a support therapist marked the beginning of an exciting and transformative journey for me. The nurturing environment at Cedarwood School allowed me to express my creativity and engage with pupils on a deeper, more focused level. Cedarwood's dedication to tailoring education to meet the unique needs of each pupil was truly inspiring and served as a constant reminder of the power of teamwork and innovation. Not only did my skills and knowledge grow through professional training opportunities, but also through the invaluable exchange of ideas and insights with my colleagues. The willingness and dedication of the staff to share their expertise made Cedarwood a rich learning environment for everyone. Challenging myself further, I stepped into the role of the Pre-Vocational teacher—a position that was both demanding and incredibly rewarding. I found great joy in designing and delivering engaging, sensory-rich, and skill-focused lessons. It was here that I truly came to appreciate the unique opportunities and alternative learning paths Cedarwood creates for neurodivergent pupils, ensuring that every child has the chance to thrive. Cedarwood became more than just a workplace; it was a soulful, inspiring community filled with knowledgeable and skilled staff and vibrant, loving children who touched my heart every day. Thank you, Cedarwood, for grounding me and growing me!
